NANOTECHNOLOGY FOR SECURITY AND CRIME PREVENTION III

**17 January 2008:
The Royal Society, London**

**SPECIAL OFFER - Attend the event for half price!
(See page 2 for details)**

Building on the success of previous conferences on the theme of Crime Prevention and Detection, this one day event will provide an update on new scientific developments in the fight against crime, based on nanotechnologies.

Presentations will include the latest advances in nanotechnology as applied to analytical techniques, anti counterfeiting, biometrics, personal safety, financial and computer-based security. Other nanotechnology-based techniques in crime prevention and detection will be presented.

There will be an opportunity to present a poster at this conference. Please submit a short (no more than 200 words) abstract to Carrie Smith, (carrie.smith@nano.org.uk). Abstracts must be received by 1st October 2007. After this date abstracts can only be accepted if there is an available space.

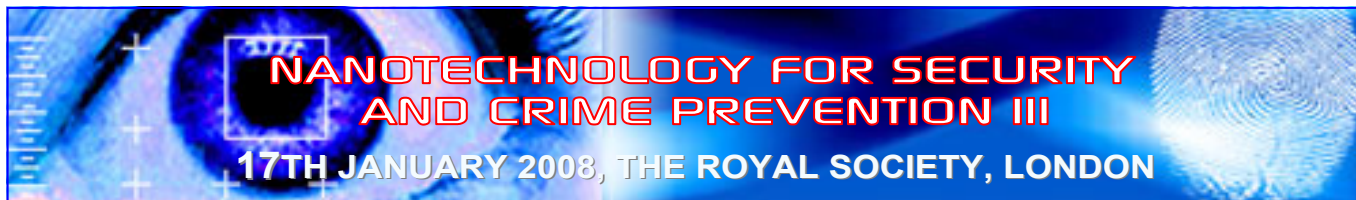

2007 conference participants included:

The Home Office, Netherlands Forensic Institute, QinetiQ, NPL, Queen Mary University of London, Embassy of the Kingdom of the Netherlands, Cardiff School of Engineering, Eric Potter Clarkson, De La Rue, Fraunhofer INT, Police I.T. Organisation, G4S Security Services, SmartWater Technology Limited, Institute of Electrical Engineers, Orchid Cellmark Ltd, Rutherford Appleton Laboratory, European Commission, Forensic Telecommunications Service, Thales Research and Technology (UK) Ltd, Forensic Science Service, BASF.
