

Giuseppino Fortunato

Curriculum

Formation:

- 1986-1992:
University of Zurich, studies of chemistry with focus on solid state materials, diploma work at the Inorganic Institute, graduation Dipl.Chem.
- 1992-1997:
Doctorate at the Inorganic Institute of the University of Zurich, with focus in the synthesis and characterisation of micron- to nanosized particles.

Experiences:

- 1998-2004: Project leader at EMPA St. Gallen, Reference Lab for chemical analysis (with focus on inorganic mass spectrometry and the development of reference standards)
- Since 2005 : Project leader at EMPA St. Gallen, Laboratory for Advanced Fibers with focus in fiber meltspinning and e-spinning.
