

Dr Tim Gibson

Dr Tim Gibson received his first degree in Medical Biochemistry in 1975 and a PhD in Biotechnology in 1991. Since then he has specialised in sensor technology and the creation of spin-out companies to commercialise the science. In 2004, he became one of the founders and directors of Scensive Technologies Ltd that produces sensors and instrumentation for applications in the industrial and medical fields. He has authored over 50 scientific papers and 5 patents in the fields of biotechnology, biosensors and chemical sensors.
