

José Conde  
**Bax & Willems Consulting Venturing**

---

José Conde holds a degree in Chemical Engineering from the University of Barcelona. In 2005 he got his Professional Doctorate in Engineering (PDEng) in Process Technology at the University of Twente. After working for Accenture, Jose joined Bax & Willems ('07) where he worked in nanotechnology and textile related projects. Since May 2008 he is responsible for the assessment of the market impact of nanotechnology in the European textile industry (Observatory Nano project - [www.observatory-nano.eu](http://www.observatory-nano.eu)).
