

## **Nano-EXPO** – Call for Papers & Posters

16<sup>th</sup> and 17<sup>th</sup> May, 2007, Nottingham, UK

The **Nano-EXPO** Conference & Exhibition is designed to bring together key industrialists and researchers in the field of micro- and nanotechnology in the pharmaceuticals, medical devices and engineering sectors. Leading international speakers will contribute to parallel sessions targeted at both commercial and scientific audiences.

Situated at the easily accessible East Midlands Conference Centre on the University of Nottingham campus, this premier event will address manufacturing, regulatory and commercial issues as well as presenting the latest developments in materials, devices, therapeutics and diagnostics.

The programme is split into the following sections:

- Regulatory Affairs
- Manufacturing & Commercialisation
- Future opportunities and public perception
- Diagnostics, imaging and sensors
- Nano-particles, drug delivery
- Materials and devices

### **Call for Papers**

The calls for abstracts for both lectures and posters for presentation at **Nano-EXPO** are now open!
